

Coworking
Visa
coworking.org/visa

Hi there, fellow coworking space manager!

A member of my space is visiting your city and would love to check out your space.

We're a member of a totally free online platform called the Coworking Visa that allows members of independent spaces like ours to visit each other's locations for up to three days free of charge.

We've found it to be a super valuable perk to offer our members—plus, it's a great way to show that we are collectively bigger than any one big chain workspace ever could be!

If you register your space in the directory linked above, let us know and we'll send our member your way.

Let us know any questions you have!

- Give your members the ability to cowork in other spaces around the world, free of charge
- Sense of camaraderie among independently run spaces everywhere!
- Great perk to attract prospective new members
- Run by a nonprofit collective of long-time coworking space owners and advocates
- 100% free!
